Email address	
Preferred layout	
Catering required (Y/N)	
Total price	
Payment method	
Signature	
Date	
COTC contact details	

Location

Centre of the Cell

Blizard Institute
4 Newark Street
Whitechapel
London
E1 2AT

The nearest London Underground station is Whitechapel. We are also close to Shadwell DLR station.

Directions from Whitechapel Underground Station

After exiting Whitechapel Underground Station, walk up, crossing the junction to the adjacent side of Whitechapel Road.

Turn left into Turner Street (the Dental Hospital will be on your left as you turn in).

Continue straight along Turner Street, then take the third turning on your right into Newark Street.

You will see a large, modern, glass building with a glass linking walkway on your right hand side. This is the Blizard Institute.

Turn left into the central area below the linking walkway. The entrance to Centre of the Cell is through the main public entrance in the building on the left hand side.

Parking

Parking is limited to a small number of metered parking spaces for cars. There is no parking for coaches, only a drop off point on Newark Street, directly in front of the Blizard Institute, the building that houses the Centre of the Cell exhibition.
There are no specific disabled parking spaces in the immediate vicinity.

Tel: 02078822562

Email: info@centreofthecell.org

Risk Assessments and Health & Safety

The following information may be useful when writing your risk assessment. The organiser is welcome to visit the building prior to the event in order to complete a risk assessment. To organise this, please contact our Booking Officer at info@centreofthecell.org or 020 7882 2562.

Disabled Access

All areas of a visit are fully-accessible for the disabled.

If you require specific facilities, please contact us on 020 7882 2562.

First Aid

Trained first-aiders will be on-call during all visits.

Centre of the Cell is less than five minutes' walk from the Accident & Emergency Department at The Royal London Hospital.

All Health & Safety incidents are reported and recorded.

Fire and Evacuation

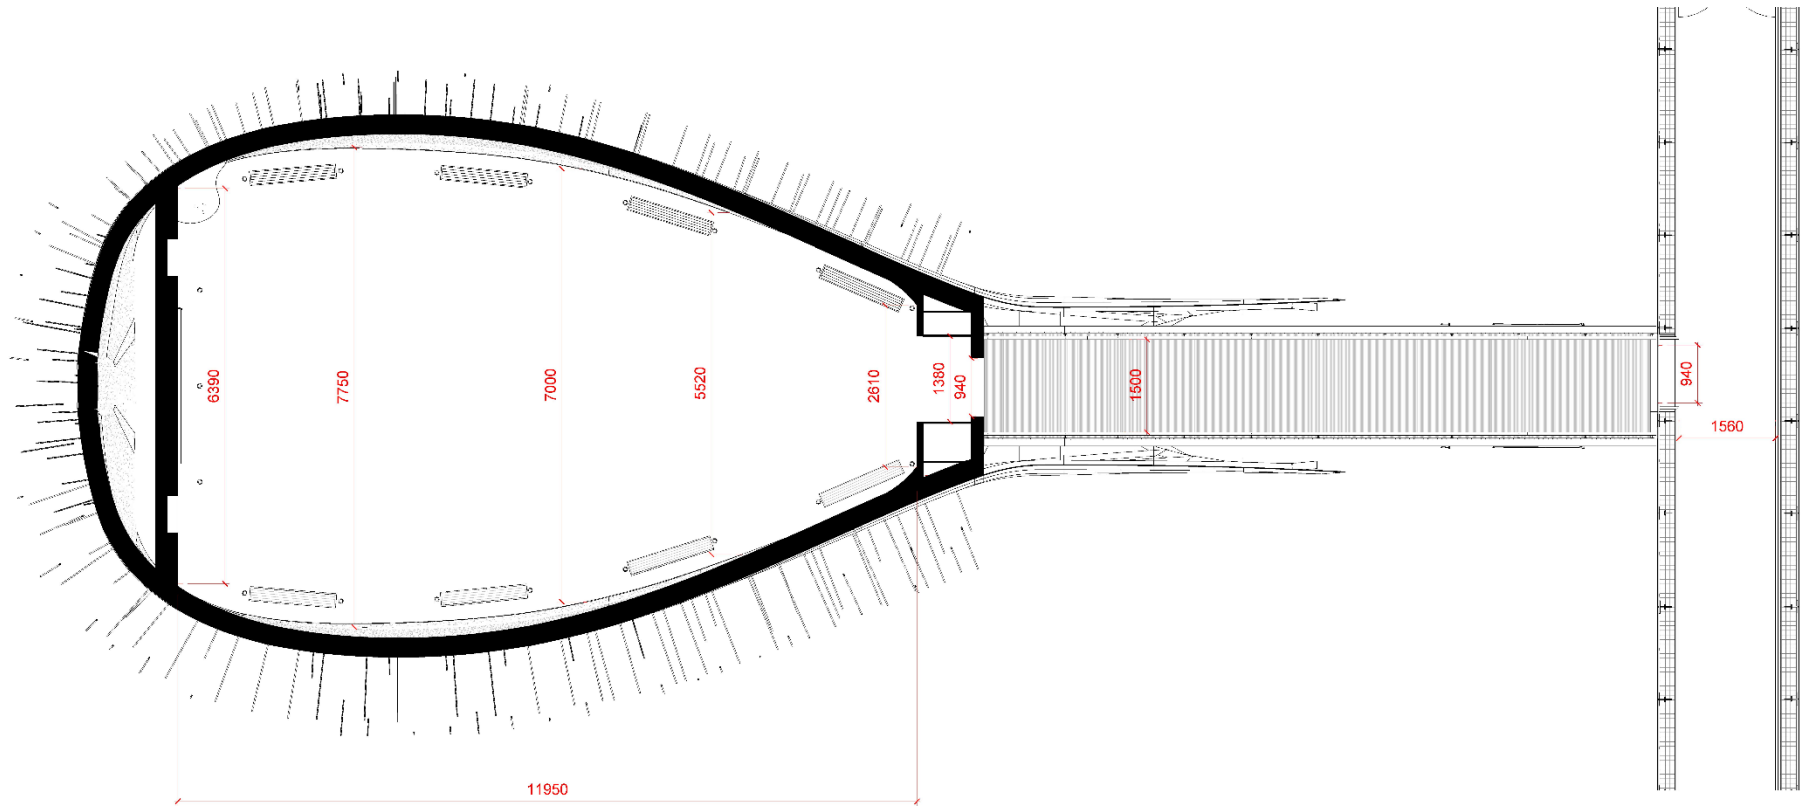

Prior to booking a member staff will show the fire assembly point for the Blizzard Institute.

Valuables

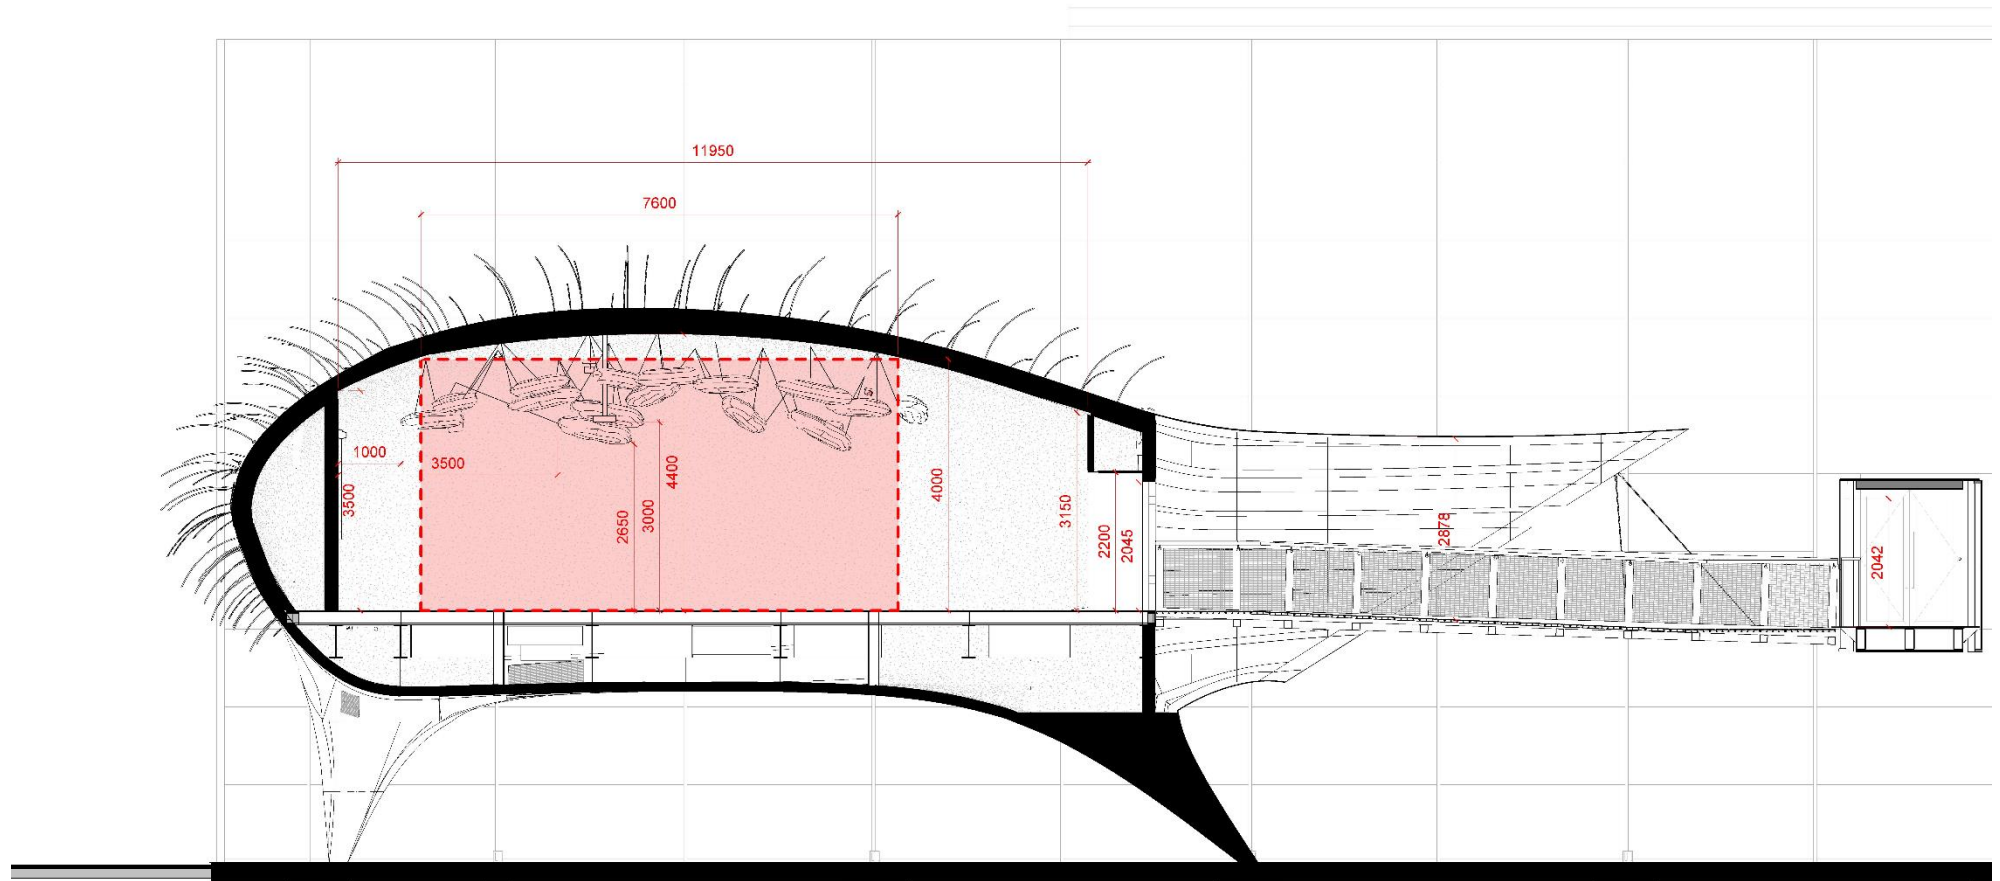

Unfortunately we cannot take responsibility for any losses that occur during the booking.

More information about the facilities

Blizard Institute - Barts and the London

About

The Blizard Institute is the largest institute of Barts and the London School of Medicine and Dentistry and aims to deliver excellence in all aspects of research, teaching and clinical service.

Our aims:

- Provision of a world class biomedical research environment which integrates basic science, clinical research and translational research activity
- Development of innovative, interdisciplinary and cutting edge programmes of internationally competitive research in our core areas
- Provision of the intellectual environment and physical facilities for high quality training of junior research staff and students
- Development of partnerships with neighbouring NHS Trusts, healthcare professionals and local communities to build research collaborations which address the health needs of our local population

Centre of the Cell

About

Centre of the Cell is a science education centre based at the Whitechapel Campus of Queen Mary University of London. It is the first science education centre in the world to be located within working biomedical research laboratories. We seek to have a positive impact on the educational, career and health choices of the children, young people and families we work with.

Centre of the Cell is an online resource, a science and health education centre and outreach project. We run educational sessions in the Centre of the Cell Pod supported by workshops, mentoring and revision programmes, online resources and volunteering opportunities.

Our aims:

- Inspire the next generation of scientists and healthcare professionals
- Stimulate interest, excitement and dialogue about biomedical research
- Raise aspirations, especially in our local community
- Widen participation in further and higher education
- Improve health and wellbeing in our local communities
- Create a local, national and global centre of excellence in Public Engagement
