

Careers in Science and Health

Find out all about careers in science and health with this new interactive workshop. This workshop will encourage students to think about the huge range of careers in science and health, what they involve, how to match their skills and interests with their choice of subjects and careers, and provide advice and information about how to build a CV or university application. We aim to have a STEM Ambassador and / or a medical or dental student assist with every workshop.

Running time: 60 minutes

Maximum group size: 35

Suitable for: Year 9 – Year 13

This workshop has sections on the following:

1. Meet a scientist (if available)
2. Meet a medical / dental student (if available)
3. Mystery object round (information about a range of careers)
4. Personality profiles (thinking about how different careers suit different personalities)
5. How to get work experience and talk about this in job and UCAS applications
6. Make an action plan!
