

## Trauma 999 Curriculum Links for AQA GCSE Biology (8461)

### **4.2.2.3 Blood**

#### **4.5.2.1 Structure and function of the human nervous system**

### **4.2.2.3 Blood**

Blood is a tissue consisting of plasma, in which the red blood cells, white blood cells and platelets are suspended. Students should know the functions of each of these blood components.

Students should be able to recognise different types of blood cells in a photograph or diagram, and explain how they are adapted to their functions.

#### **4.5.2.1 Structure and function of the human nervous system**

Students should be able to explain how the structure of the nervous system is adapted to its functions.
